DETAILED ACTION

1. Applicant's arguments, see pages 4-9, filed 11/15/2006, with respect to claims 1-11 have been fully considered and are persuasive. The rejection of claims 1-11 has been withdrawn.

2. Claims 1-11 are allowed.

The following is an examiner's statement of reasons for allowance: the closest references to the claimed invention made of record are U.S. Patent Nos.: 4,727,787 (Schlosser – see, Figures 1-2) and 5,048,070 (Maehama et al. – see Figure 5).

Schlosser discloses an apparatus for measuring an elongate articles, which comprises a measuring tape (25 of Fig. 2) a camera (26 of Fig. 2) and monitor (15 of Fig. 1). Schlosser does not disclose the evaluation unit as recited in claim 1 or 10 for extracting position information from the images captured by the camera.

Maehama et al. discloses an X-ray apparatus (Fig. 5) comprising two movable components (2/3). However, The X-ray apparatus does not show a position visualization unit, an image acquisition unit, which acquires images of a segment of the position visualization unit that changes due to a relative motion between the two movable components of the apparatus, and/or an evaluation unit.

Since the prior art made of record, including Schlosser and Maehama et al., does not reveal nor render obvious the recited limitations of the claimed invention including two components displaceable relative to one another, a position visualization unit, an image acquisition unit, which acquires images of a segment of the position visualization

unit that changes due to a relative motion between the two components of the apparatus, and a evaluation unit for extracting position information from the images, thus, claims 1-11 are allowed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
